National Sheep and Goat Scrapie Eradication Program:

Effective July 1, 2004

Requirements for Identification of Sheep and Goats in Shows, Exhibitions and Fairs.

This information is presented to clarify the mandatory identification requirements for sheep and goats under the National Scrapie Eradication Program. There are two components of the identification requirements that must be met before sheep and goats are allowed to move into the state or within Florida (intrastate) for shows, exhibitions, and fairs.

1. Premises Identification – Before official individual animal identification tags can be issued, the owner/agent must register the premises on which the animal is located and obtain a premises identification number from USDA.
2. Individual Animal Identification – Once the premises is registered, the owner/agent will receive official individual animal identification tags for identifying each sheep and goat. Applicator pliers will be provided to FFA, 4-H leaders and/or fair/livestock/show committee for assisting exhibitors in application of the official ear tags.

NOTE:

Sheep and goats must be officially identified before commingling with other groups of animals. For registered purebred sheep and goats identified with a permanent official breed registration number, official ear tags are not required. However, upon presentation of such animals for exhibition, a copy of the breed registration certificate must accompany each animal. Regardless of the method of official identification, each animal must be associated with a premises identification number. The premises must be registered before the exhibitor can receive the official individual ear tag for each animal. The official tags must be applied to the exhibitor's animals prior to presenting them for exhibition. Official ear tags must be affixed by FFA, 4-H leaders or a veterinarian.

Youth Registered Dairy Goat Show Rules:

1. The Fair requires that all goats be tagged or tattooed with Scrapie Identification prior to the arrival date, no tattooing will be allowed after unloading. All tattoos and tags must be legible and correspond with entry or the animal will be disqualified.
2. Each exhibitor entered will be required to bring in their own animal, unless special written permission is granted from the Exhibits Office.
3. The animal is being entered at the sole risk of the exhibitor.

Dairy goats must be free of symptoms of all other contagious and infectious diseases whether or not such diseases are herein specifically named. Any animal showing symptoms of any disease will not be allowed in The Fair. Superintendents may decline or disqualify any animal they feel does not meet exhibition standards.
