FLORIDA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES COMMISSIONER NICOLE “NIKKI” FRIED

Welcome to the Miami-Dade County Youth Fair and Exposition!

Each year, approximately 5 million people attend one of the numerous fairs around our state. As Florida’s Commissioner of Agriculture, I am enthusiastic about the positive impact fairs and livestock shows have on the agricultural industry.

Events like the Miami-Dade County Youth Fair and Exposition are an excellent platform for showcasing the finest “Fresh From Florida” products as well as the industry’s latest technological advancements and innovations.

The Florida Department of Agriculture and Consumer Services created and maintains the “Fresh from Florida” program, which assists small and large producers alike by promoting the wide variety of high-quality products that are grown and harvested in Florida. I hope we can also count on your support of this program - just look for items with the “Fresh from Florida” label. Together, we can help our state’s agricultural industry thrive.

While you are visiting the Miami-Dade County Youth Fair and Exposition today, I hope you will take the opportunity to enjoy the outstanding food, entertainment, contests and youth exhibits. Most importantly, I hope your day at the fair will allow you to experience Florida’s agricultural roots and its impact on our great state. Enjoy!

Sincerely,

COMMISSIONER NICOLE “NIKKI” FRIED

1. Exhibitor represents to Miami-Dade County Fair & Exposition, Inc. ("The Fair") that no animals that are exhibited or otherwise transported onto the fairgrounds will in anyway be suffering from any contagious or infectious disease. In addition, owner shall defend, indemnify, and hold The Fair, the applicable Show Committee and each of their respective officials, officers, directors, employees and agents harmless of and from all losses, damages, claims, expenses, including reasonable attorney's fees at the trial and appellate levels, actions and causes of action arising out of, or in any way connected with, or by reason of this Agreement, the presence of owner's livestock at the fairgrounds, and/or use of the fairgrounds including, but not limited to any claim for the death of, or injury to any person or livestock, or damage to, theft of, or destruction of any property arising out of any act or omission of owner, owner's officers, agents, employees, trainers, drivers, riders, handlers, contractors and livestock, violation of any Federal, State and Local environmental laws, rules, ordinances and/or regulations, actions for negligence, wrongful death, torts, defects in the real and personal property at the fairgrounds and from any alleged liability, cause, litigation or proceeding whatsoever, even if such injury, death, loss or property damage results, in whole or in part, from the negligence of The Fair, or the applicable Show Committee and their respective officials, officers, directors, employees and agents or otherwise. Neither The Fair nor such applicable Show Committee shall be liable to owner, or any officer, agents, employees, trainers, drivers, riders, handlers, or other contractors, invitees or guests of owner for any injury or damage to livestock, person or property. The Fair, its officers or agents, assume no liability for any loss or damage to property (including but not limited to livestock) on account of fire, theft, or any other cause including infectious or contagious diseases. In addition, owner acknowledges receiving and agrees to abide by the applicable Official Rules and Regulations of The Fair included in The Fair's Handbook and same are incorporated by reference herein.
2. No smoking, vaping or lighted candles, lamps, matches, etc., will be allowed in any stalls or booths on the grounds or in the buildings and/or tents.

6. All exhibits must have been raised, trained, or grown by the student exhibitor. A veterinarian's certificate stating the health of an entered animal is required by some divisions under Florida law, check division listing.

8. The management of The Fair and/or their designee reserve the right to remove and disqualify any exhibit which is not in the best interest of The Fair; or endangers the public; or is objectionable in any way; or has been entered in violation of these official rules and regulations; or to reject, limit or disqualify the acceptance of, or the display of, any exhibit brought to the fairgrounds.

NATIONAL CODE OF SHOW RING ETHICS

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)

Exhibitors of animals at livestock shows shall at all times conduct themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested (by the approved laboratory to which it is sent) is the one taken from the animal in question. Its integrity is preserved and all procedures of said collection and preservation transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show

officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

National Sheep and Goat Scrapie Eradication Program:

Effective July 1, 2004

Requirements for Identification of Sheep and Goats in Shows, Exhibitions and Fairs.

This information is presented to clarify the mandatory identification requirements for sheep and goats under the National Scrapie Eradication Program. There are two components of the identification requirements that must be met before sheep and goats are allowed

to move into the state or within Florida (intrastate) for shows, exhibitions, and fairs.

1. Premises Identification – Before official individual animal identification tags can be issued, the owner/agent must register the premises on which the animal is located and obtain a premises identification number from USDA.
2. Individual Animal Identification – Once the premises is registered, the owner/agent will receive official individual animal identification tags for identifying each sheep and goat. Applicator pliers will be provided to FFA, 4-H leaders and/or fair/livestock/show committee for assisting exhibitors in application of the official ear tags.

NOTE:

Sheep and goats must be officially identified before commingling with other groups of animals. For registered purebred sheep and goats identified with a permanent official breed registration number, official ear tags are not required. However, upon presentation of such animals for exhibition, a copy of the breed registration certificate must accompany each animal. Regardless of the method of official identification, each animal must be associated with a premises identification number. The premises must be registered before the exhibitor can receive the official individual ear tag for each animal. The official tags must be applied to the exhibitor's animals prior to presenting them for exhibition. Official ear tags must be affixed by FFA, 4-H leaders or a veterinarian.
